Overview

This development has 40 semi-detached townhouses, each with three bedrooms, in a low-density community in western Estepona. The ground floor has an open-plan living, dining and kitchen area. The master bedroom has a walk-in dressing room and an en-suite bathroom, and the other bedrooms are larger than average. Each townhouse has two parking spaces and a basement storage room, plus a spacious terrace.

Amenities

Residents share an outdoor swimming pool with a saltwater system and evening lighting, a fully equipped outdoor gym, and landscaped gardens. The complex is a gated community. Garden townhouses can add a private pool, and upper townhouses can add a plunge pool on the solarium. The terraces look over the gardens and the golf course.

Specifications

Each townhouse has air conditioning, a fully fitted kitchen with all appliances, and floor-to-ceiling windows that bring in natural light. The townhouses also include shutters, an electric video door phone, and pre-installation for an electric car charger.

Sustainability

Each townhouse uses an aerothermal heat pump for energy-efficient heating and hot water. The fittings are energy-efficient, and the swimming pool uses a saltwater chlorination system, which lowers the use of chemicals.
