Overview

This residential development consists of 68 south-facing terraced houses with 3 or 4 bedrooms, spread across 8 rows. Most homes include a garage, terrace, and private garden. Many offer stunning sea views, and all homes are designed to maximize natural light.

Amenities

The complex offers several communal areas, including a large outdoor swimming pool with saline chlorination, a fully equipped gym, a SPA, a social lounge, and a chill-out zone. The entire development is equipped with Wi-Fi, and there are also landscaped gardens and a cardio-protected space with a defibrillator.

Specifications

Kitchens come with spacious cabinets, quartz countertops, and high-end BOSCH appliances, including an oven, fridge, ceramic hob, dishwasher, and microwave. Bathrooms feature vitrified porcelain sanitary ware, Hans Grohe taps, and an arothermal system for heating and cooling, with underfloor heating in upstairs bathrooms. Some homes include private garages and storage, with pre-installation for electric vehicle charging.

Sustainability

The homes are energy efficient, with a B energy rating. They feature enhanced thermal insulation through improved façades and low-emissivity glass, reducing energy consumption for heating, cooling, and hot water. Renewable energy sources are used for domestic hot water, resulting in an estimated 80% energy savings and significantly reduced CO2 emissions.
