Overview

This development has **twelve apartments**, including duplex and penthouse layouts. Each apartment has **three bedrooms, three bathrooms and floor space between 184 and 188 m²**. Every apartment includes a large terrace with sea views and a private pool. The building stands on a hill and has an elevator. The building licence has been granted, construction started in November 2025, and delivery is planned for the **fourth quarter of 2027**.

Amenities

Each apartment has a **private leisure area** with a fitted summer kitchen, a dining space and a chill-out zone. It also includes **three garage spaces, one with an electric vehicle charger**, a motorcycle space, and a storage room with a fitted laundry area. The development has landscaped gardens and a **full security system** with an alarm panel, perimeter cameras, facial and licence plate recognition, infrared barriers, panic buttons, movement detectors, armored doors and a high-security safe.

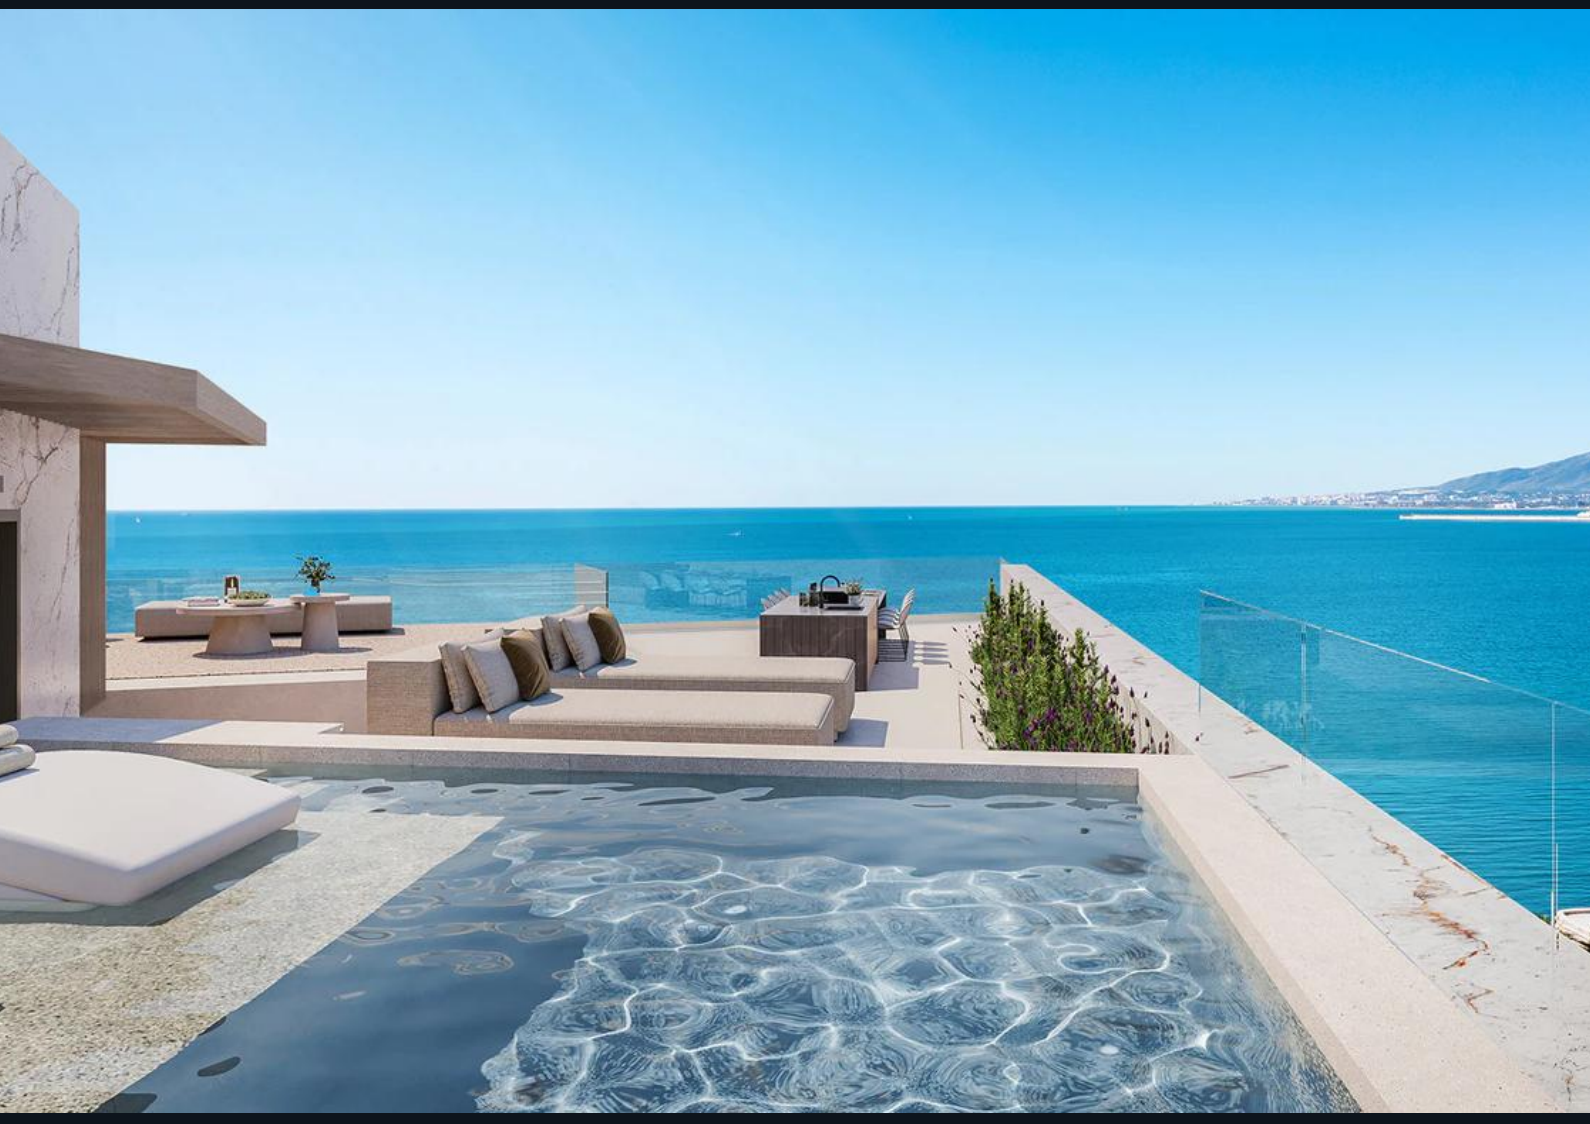

Specifications

Each apartment has a reinforced concrete structure with thermal and acoustic insulation, a ventilated facade and double-glazed aluminum windows. Floors and bathroom walls use **large-format Porcelanosa porcelain tiles**, and all bedrooms have built-in closets. The kitchen has **Gaggenau appliances** and a stone countertop. Climate comfort comes from underfloor heating, air conditioning, mechanical ventilation with an F7 filter and an automated bioclimatic pergola on the terrace. A KNX automation system controls the apartment, and buyers can customize the interior finishes.

Sustainability

The development includes **solar panels on the roofs** to produce electricity. Hot water comes from an individual aerothermal generator in each apartment, which is highly energy efficient. The gardens use **low water consumption plants** with automated irrigation, and the private
