Overview

The development consists of **353 apartments with one to four bedrooms** and up to three bathrooms, all with private terraces. The stepped design follows the slope of the plot, reaching seven floors on one side and descending to five floors on the other. Most apartments enjoy **sea and mountain views** from their large terraces overlooking the interior gardens.

Amenities

Residents have access to **communal swimming pools**, landscaped interior gardens, and a large shared rooftop terrace running across the top of the complex. The development also includes an **underground garage with 750 parking spaces**, individual storage rooms, and 25 commercial units integrated within the same block.

Specifications

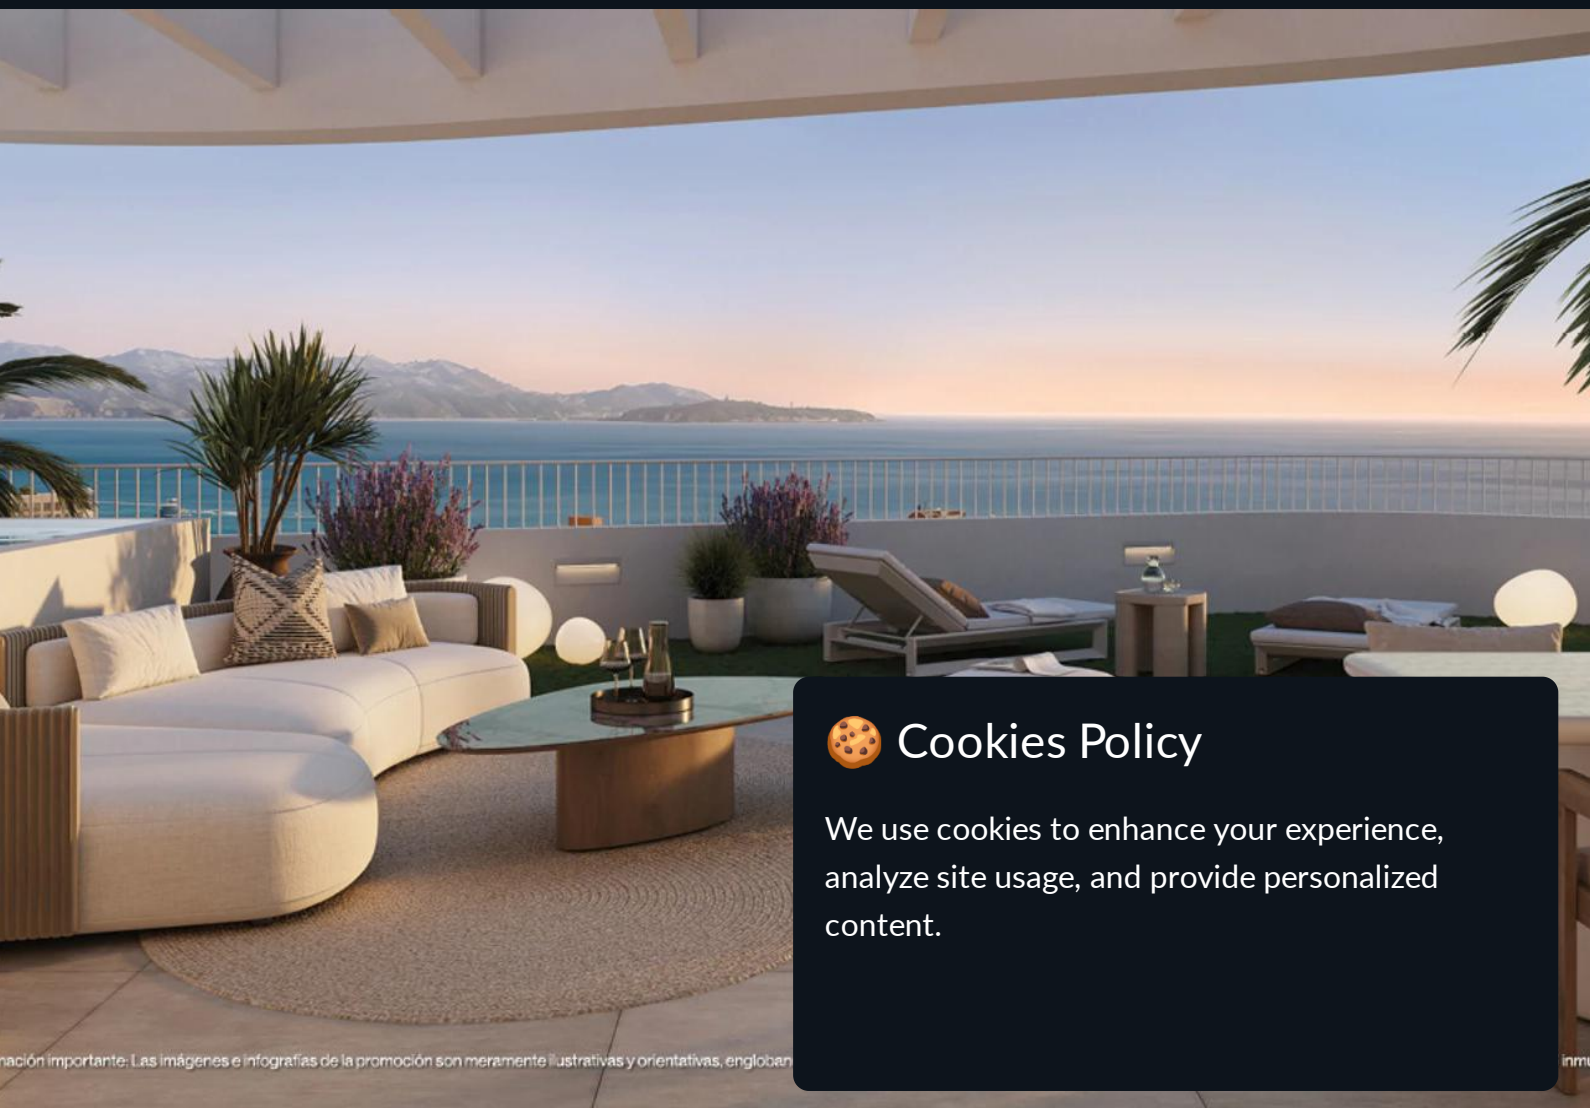

Each apartment has a modern, functional layout designed to maximise natural light and the connection with outdoor spaces. Terraces are generous and extend the living area outside. The **top-floor apartments include private solariums, private pools, jacuzzis, and chill-out zones**, with direct access to the shared rooftop terrace.

Sustainability

The complex is built around extensive landscaped interior gardens that form a **green lung** within the urban block. These shared green areas provide natural shade, support biodiversity, and contribute to a cooler microclimate across ~~the entire residential development~~
