Overview

This development has two buildings with 42 apartments of 1, 2, or 3 bedrooms, including penthouses on the top floors. Each apartment has a wide terrace with open sea views, and the curved design lets in natural light. Every apartment comes with two parking spaces and a storage room. The buildings sit on a quiet hillside close to the sea. Completion is planned for the second half of 2028.

Amenities

The development offers an outdoor infinity pool facing the sea, an indoor pool with a glass enclosure for year-round use, and a sauna. There is a gym with sea views, a coworking space, and a gastrobar with a sports bar. Residents also have a yoga area, a putting green, Mediterranean gardens, and an outdoor terrace with a fireplace. The lobby includes a hotel-style concierge reception and parcel lockers for deliveries. A public panoramic lift connects the development to the beach, and CCTV covers the communal areas and parking.

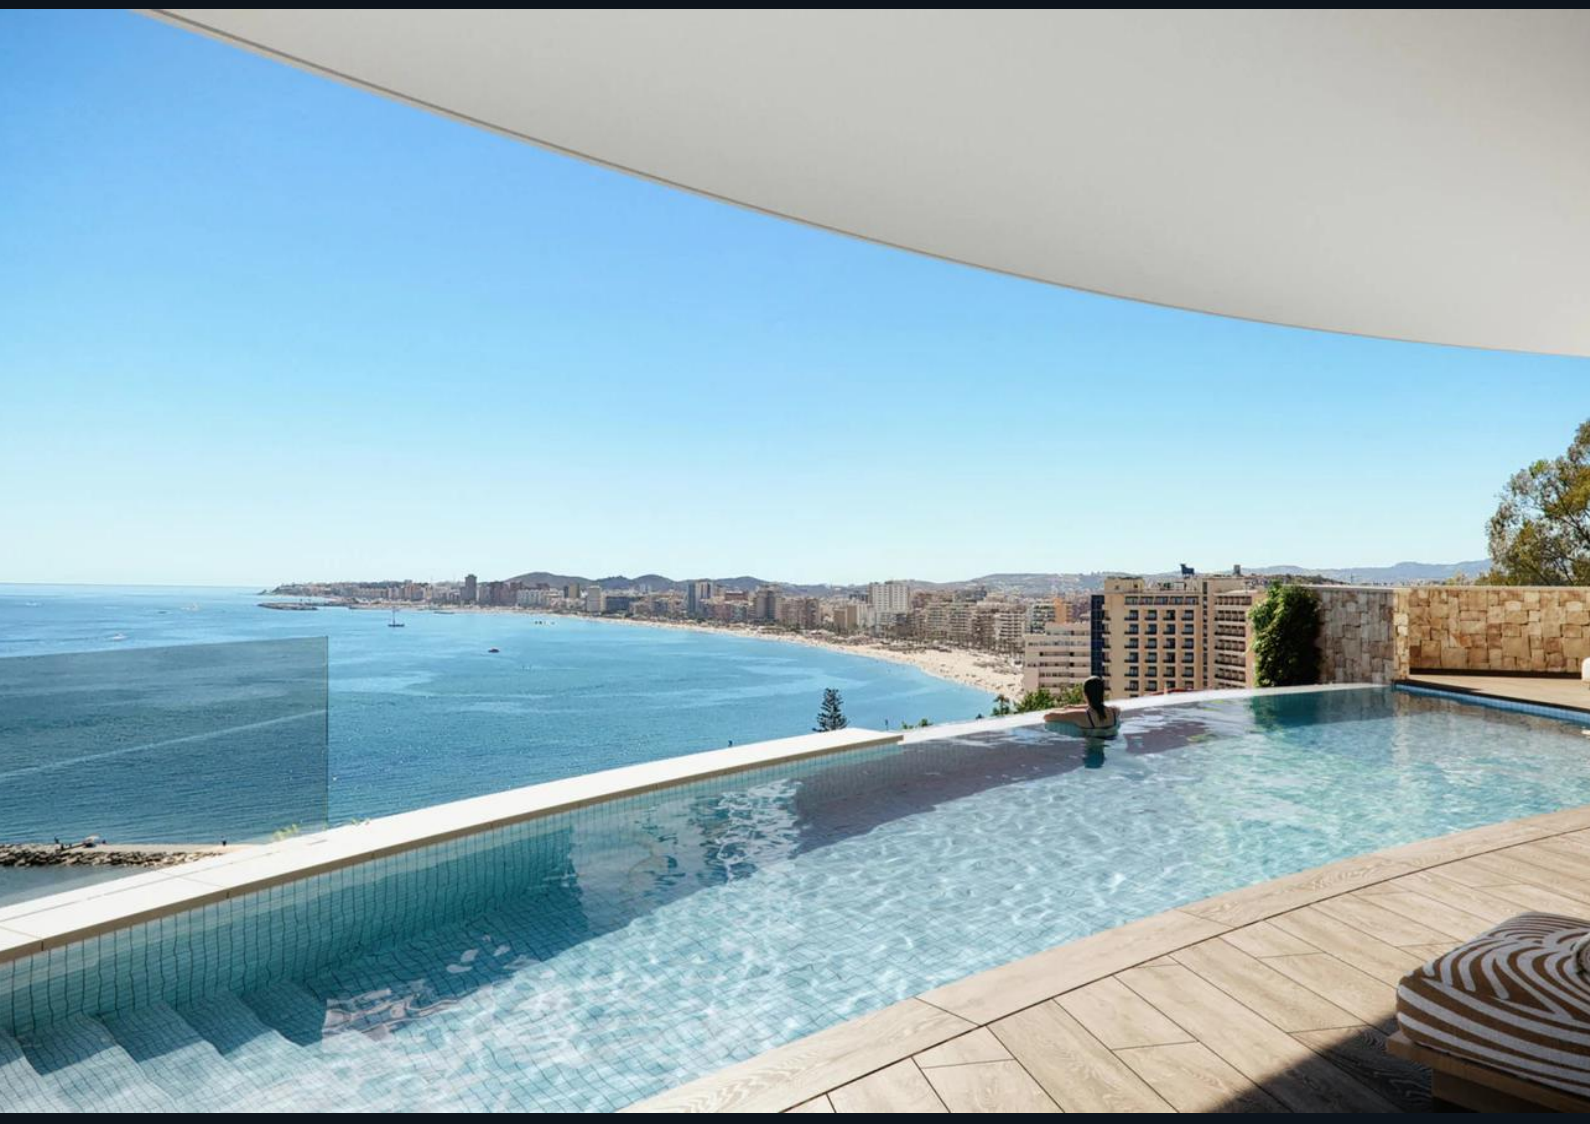

Specifications

Each apartment has a fully equipped designer kitchen with light units, DEKTON worktops, and integrated Miele appliances. Floors use large-format porcelain stoneware in sand tones, and large windows fill the rooms with light. Apartments include underfloor heating, zoned air conditioning, and built-in wardrobes with LED lighting. Bedrooms have en-suite bathrooms with GROHE taps, DEKTON washbasins, and blackout blinds. Each apartment also has a digital video intercom, USB-C sockets, and one electric vehicle charging point.

Sustainability

The development uses solar panels on the roofs to power the communal areas. Underfloor heating and hot water come from an efficient arothermal system. Strong thermal and acoustic insulation with double glazing reduces energy use in each apartment. The swimming pools use a salt electrolysis water purification system. LED lighting with automatic control is
